WORK EXPERIENCE

University Of Virginia, Charlottesville, VA
SOC Analyst Intern

September 2025 - Present

- Monitor and analyze 100+ security events in Splunk, using SPL on DNS/DHCP/email logs to identify malicious IPs and trigger blocks, reducing false positives by 20%
- Drive SOC incident triage, documentation, and escalation, leveraging Splunk, Suricata IDS, and complementary tooling to validate alerts and reduce time-to-response
- Collaborate with senior analysts on threat detection and vulnerability assessment workflows

UVA School of Data Science, Charlottesville, VA
Student Admin

September 2024 - Present

- Managed IT asset inventory end-to-end and coordinated cross-department requests, improving delivery timelines.
- Built and maintain a web app for the Dean that automates tracking of expense reports and travel itineraries, cutting manual updates and email back-and-forth.
- Oversaw arrangement of "Datapalooza" , an event consisting of a cohort of ~500 individuals

Walgreens, Basking Ridge, NJ
Shift Lead

July 2022 - September 2022

- Oversaw group of 6 and delegated tasks among employees to ensure equal distribution of work
- Created daily budget goals/documented profits and cash records while securely transferring to safe

KEY PROJECTS

AI Resume Analyzer (Resumify)

- Built an AI resume analyzer with React Router v7 and Puter.js backend.
- Provided tailored resume feedback based on job and company data.

Home SOC: Personal Cyber Defense Virtual Lab

- Set up a home Security Operations Center (SOC) with Azure to monitor live cyber threats.
- Utilized Microsoft Sentinel to detect and analyze over 100 suspicious events in the first month.

EXTRACURRICULARS

Students Who advance in Technology (SWAT), Charlottesville, VA
Vice-President

April 2025 - Present

- Co-lead a 50+ member student organization focused on hands-on tech skills; currently refurbishing and donating 20+ devices to underserved communities through 3 local non-profit partnership
- Develop websites and internal tools for specific UVA departments, tackling real-world issues and developing software solutions to support student services and operations
